– The MAILING DATE of this communication appears on the cover sheet with the correspondence address.

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Black et al (4253343).

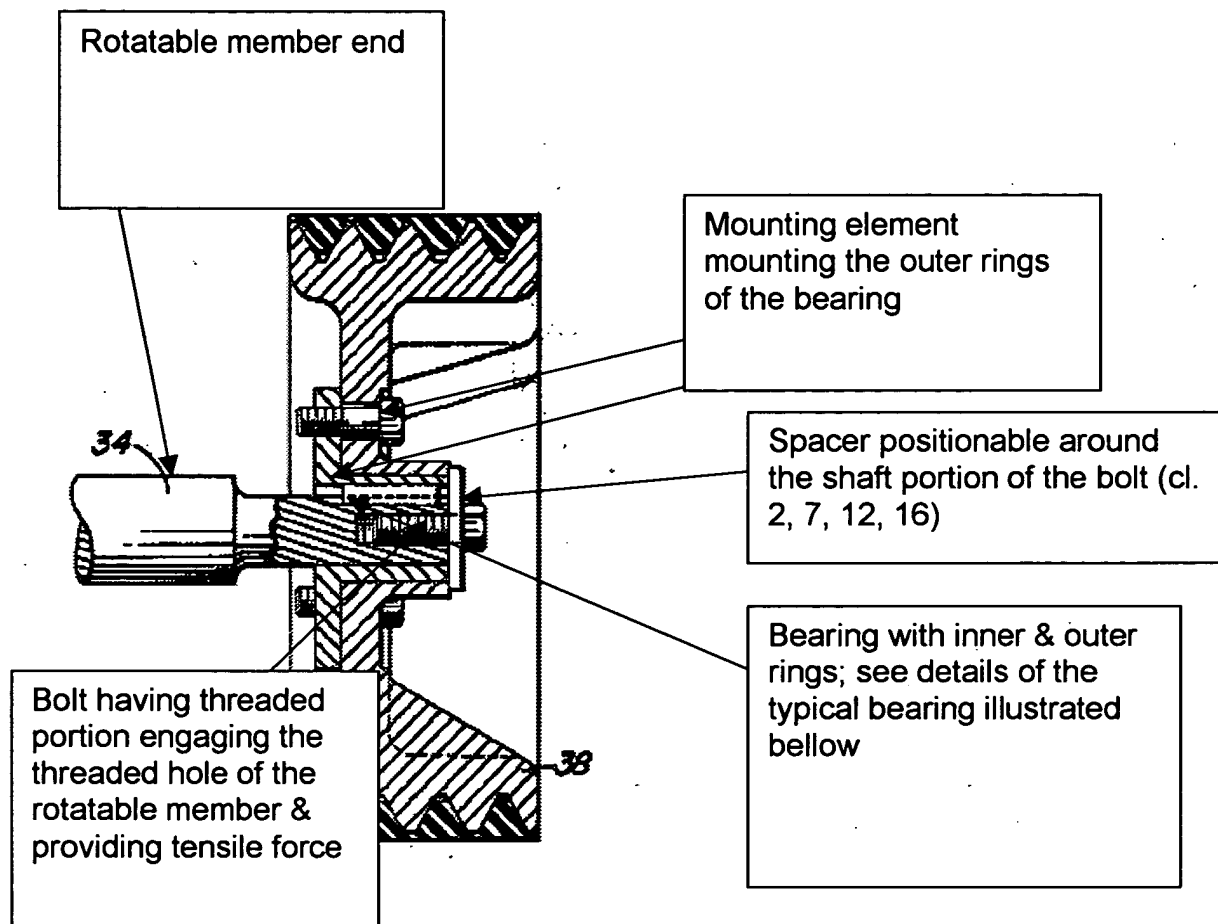

Applicant recites the following structural limitations & which is met by the Black as shown in the marked up drawings below for greater clarity:

Claim 1:

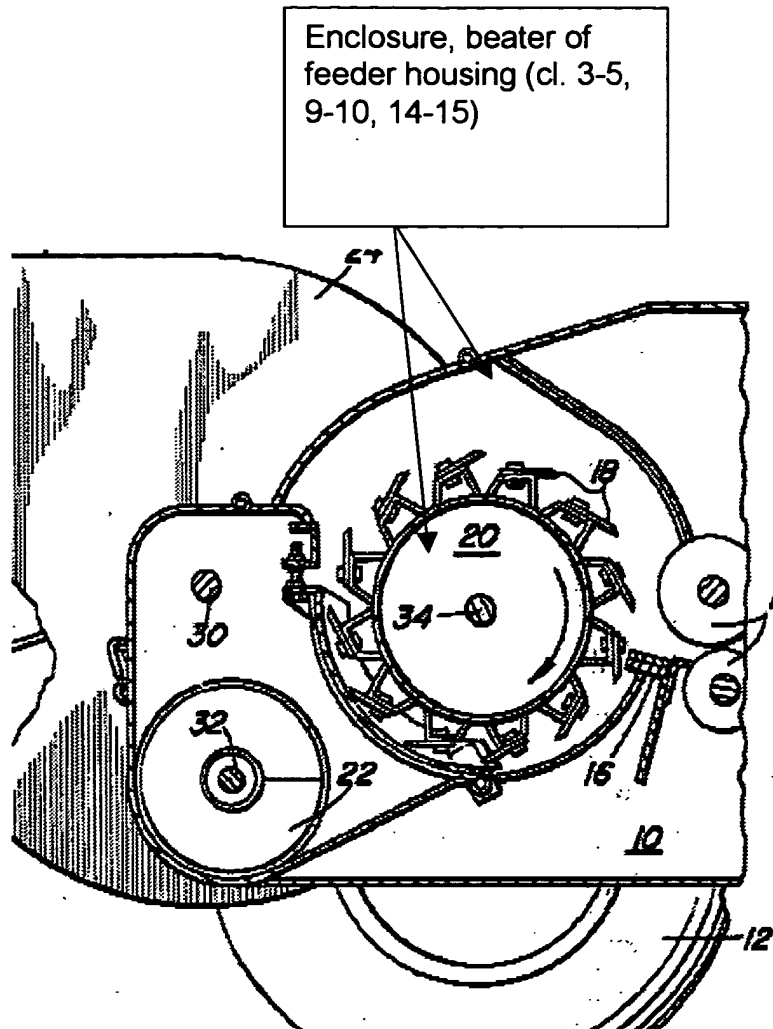

a bearing & shaft assembly comprising: a bolt having a threaded end portion, an opposite end portion including an enlarged head having a shoulder therearound facing the threaded end portion, a cylindrical shaft portion between the two end portions;

a bearing having inner & outer rings, the inner ring having oppositely facing axial ends extending around a central hole therethrough; and the outer ring including at least one mounting element.

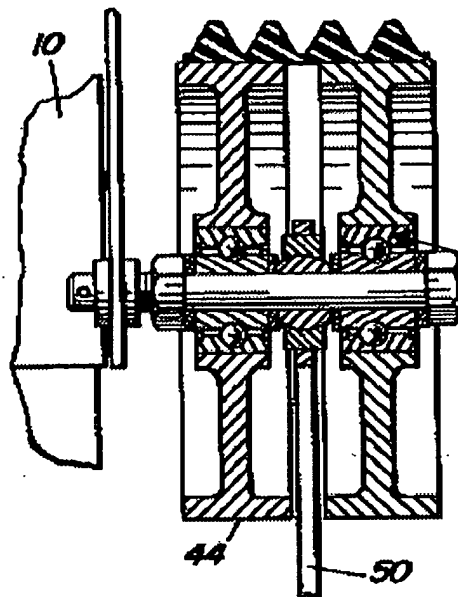

Claims 6 & 11 recite substantially the same features of the bearing & shaft assembly as claim 1.

Art Unit: 3671

It is noted that the bearing & shaft assembly shown above & below in greater detail, is the same assembly utilized for beater/cutter-head ref 20.

Typical bearing & shaft assembly utilized also for the above bearing & shaft assembly in greater detail showing the actual bearing & shaft arrangement;

***Response to Arguments***

3. Applicant's arguments filed 9/17/2004 have been fully considered but they are not persuasive.

In response to Applicant's argument on page 7-11, it has been held that a recitation with respect to the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from a prior art apparatus satisfying the claimed structural limitations. *Ex parte Masham*, 2 USPQ2d 1647 (1987).

Examiner pointed out in re claim 1 (similar interpretation utilized in all other claims) what is considered in making the rejection and in meeting the structural limitations recited in the claims.

As shown in greater detail above, the Applicant outlined how the bearing & shaft assembly taught by Black is utilized by Black on the same shaft which drives the beater/cutter-head ref 20. It is noted that, while a typical bearing is well known, Black shows details a bearing in fig 3, as outlined above.

***Conclusion***

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

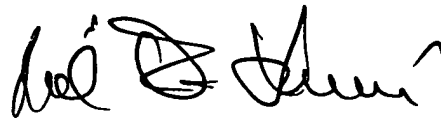

Art Unit: 3671

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
